For the purpose of this Schedule the expression “the Estate” is to be understood as meaning the whole or portion, as the case may be, passing to each person of all the property of the deceased situate outside the Colony as well as the property of the deceased within the Colony.

(a.) But when the whole or any portion of such Estate passes to the husband or wife of the deceased absolutely, no Estate Duty is payable on such whole or portion as the case may be.

(b.) When the whole or any portion of such Estate passes to the husband or wife of the deceased, otherwise than absolutely, or a lawful issue or ancestor of the deceased, one-half only of such rate is payable on such whole or portion as the case may be, of the property chargeable with the duty.

(c.) When the whole or any portion of such Estate passes to any other person than the husband, wife, lawful issue, ancestor, or brother or sister, or the lawful issue of such brother or sister of the deceased, one-and-a-half times such rate is payable on such whole or portion, as the case may be, of the property chargeable with the duty.

Note.—The whole or portion of the “Estate” for the purposes of the rate of duty will not in all cases be the same as the whole or portion of the property chargeable with the duty, as in some cases all or some of the property of the deceased outside the Colony will not form part of the property chargeable with duty.

BANKRUPTCY ORDINANCE No. 38 OF 1916.—CONTINUED.

PETITIONING CREDITORS' COSTS.—Continued.

The petitioning creditor's Solicitor may be allowed all proper charges at the rate specified in the scale for all work necessarily or usually done in the interest of the creditors generally for the protection or benefit of the estate between the presentation of the petition and the date of the receiving order, if the receiver or trustee shall certify that the work done was necessary or useful. Such certificate may be given by the signature of the receiver or trustee to a memorandum containing such certificate at the foot of the bill of costs.

In exceptional cases where the petitioning creditor's Solicitor has from the presentation of the petition rendered special services in the interest of the creditors generally, and such services shall have assisted to preserve or increase the assets, or otherwise been of substantial advantage to the estate, all proper charges for such services at the rate specified in the scale may be allowed upon a certificate signed by the receiver or trustee to that effect which may be given by a memorandum containing such certificate at the foot of the bill of costs.

When the receiver employs the petitioning creditor's Solicitor or the debtor's or other Solicitor to take any steps for the protection or benefit of the estate or in other matters not included in the foregoing scale, the costs of the work done under such employment in the absence of any special agreement with the receiver, may be allowed.

Where the petition is opposed costs may be allowed in addition for necessary matters, such allowance shall be made in conformity with the scale as nearly as may be of costs in the Supreme Court.

AT 31ST DECEMBER, 1919.

Present Debt.	REMARKS.
£ s. d.	
...	(a.) { These Bonds were payable by the Crown Agents and the Receiver-General at their offices in London and Trinidad respectively, by annual instalments, by means of a Sinking Fund equal to one per cent. per annum on the total amount of Debentures issued and five per cent. on the amount of the Bonds already drawn. The repayments commenced in March 1874 and were made by annual drawings, by lot, in the presence of a Notary Public. The Bonds were finally paid off in March, 1911.
...	(b.) { These Bonds were payable by the Crown Agents at their Office in London under the same conditions as stated above. The Bonds were finally paid off in 1918.
5,800 0 0	(c.) { These Bonds are payable by the Crown Agents by annual instalments, by means of a Sinking Fund equal to one per cent. on the total amount of Debentures issued plus 4 per cent. on the value of the drawn Bonds. Interest is paid on 15th March and 15th September. The final payment, in respect of the Bonds issued under Ordinance 8 of 1880, will be made about March, 1924. The whole of the outstanding Debentures issued under Ordinance 1 of 1882 were converted into Inscribed Stock in 1896.
5,800 0 0	
70,260 0 0	(d.) { These Bonds will be redeemable from the 15th June, 1925 by annual drawings to be held by the Receiver-General at his Office, in the presence of a Notary Public to be appointed by the Governor for the purpose. The amount payable each year shall be one-twentieth part of the Loan raised. Interest is payable half-yearly on the 15th June and 15th December.
99,940 0 0	
176,000 0 0	(e.) { These Bonds will be redeemable from the 15th September, 1928, by annual drawings to be held by the Receiver-General at his Office, in the presence of a Notary Public to be appointed by the Governor for the purpose. The amount payable each year shall be one-twentieth part of the amount raised. Interest is payable half-yearly on the 15th March and 15th September. Scrip Certificates were redeemable after 15th September, 1919.
322,592 19 6	(f.) { Stocks were given in exchange for Bonds in accordance with proposals contained in a prospectus issued by the Crown Agents in April, 1892, by which the holders of Debentures were offered an opportunity of conversion into 4 per cent. Inscribed Stock. The amount of Debentures surrendered in exchange for Inscribed Stock is £346,200. The Stock will be repayable on the 15th March, 1917-1942 by the operation of a Sinking Fund of one per cent. per annum which commenced on 15th July, 1897. The Sinking Fund is invested in Colonial Stocks. Interest on the Loan is payable on 15th March and 15th September. —(Vide Council Paper No. 88 of 1897.)
100,000 0 0	(g.) { These Stocks will be repayable on the 15th March, 1917-1942 by the operation of a Sinking Fund of one per cent. per annum on the total amount issued, commencing as from 15th January, 1893. Interest on the Loan is payable on 15th March and 15th September.
400,000 0 0	
100,000 0 0	(h.) { These loans will be paid off on the 15th July, 1922-1944 by the operation of a Sinking Fund of one per cent. per annum on the total amount of Stock issued, commencing as from 15th January, 1898. Interest on the Loan is payable on 15th January, and 15th July.
100,000 0 0	
550,000 0 0	(i.) { This loan will be repayable at par on the 15th March 1917-1942 by a Sinking Fund of one per cent. per annum to be formed under the management of the Crown Agents for the Colonies who are appointed Trustees. The interest at the rate of 4 per cent. per annum will be payable half-yearly on the 15th March and 15th September in each year by Dividend Warrants, the first payment becoming due on the 15th September, 1914.

(1.) Government Medical Officers receive, in addition to their fixed salary of £300 per annum certain allowances for House Rent, Horse and Special Service according to the District in which they reside and Staff appointment they hold. Personal allowances are given to certain Officers who had been some years in the employment of the Government, to approximate their present pay to their former receipts, before the establishment of regular Medical Service.

Improvements in Agriculture and Manufactures introduced this year.

Progress of any Improvements previously reported.

Sugar.—Improvements have been effected in Sugar Machinery, notably by the introduction of a shredder at the Usine Ste. Madeleine.

Sugar.—Experimental work in animal drawn implemental cultivation has been carried out during the year on the Department of Agriculture's sugar lands, by an expert from Louisiana, and a report prepared giving in comparison costs with hand labour, to the advantage of the former. There has been a marked increase in implemental tillage on some of the larger Sugar estates.

Experiments have been continued with the use of Motor tractors.

Continued attention has been devoted to the Froghopper pest (*Tomaspis*) and the researches point to fungoid root disease playing an important contributory part in producing the result generally designated as "blight." It is hoped that increased attention to tillage and rotation of crops will reduce the losses.

Cane Farmer's Competitions were held in the central and northern sugar districts by the Board of Agriculture with satisfactory results.

Cacao.—The Department of Agriculture has continued its experimental work on many phases of cacao cultivation at River Estate and also on some private properties. The budding of Cacao is attracting increasing attention and plots of budded cacao are with the co-operation of the Department being tried on various estates.

Coconuts.—The industry continues to expand rapidly in both Trinidad and Tobago and in both increased attention has been given to tillage and cover crops. The development of the Coconut fibre industry has been hampered by a fire at one of the factories, and also by high freights.

Rubber.—The exports of Hevea rubber increases slowly. One estate now taps some 20,000 trees, and has introduced modern machinery for the preparation of rubber. Experiments by the Department of Agriculture to determine the best tapping interval, and also yields in a drier locality have been continued.

Coffee.—Planting chiefly of the *robusta* and *excelsa* varieties continues.

Limes.—This industry expands and there has been considerable new planting in both Trinidad and Tobago. Outbreaks of the Wither tip disease have caused some loss of crop.

Fruit.—Trial shipments of citrus fruits to Bermuda, etc., have been continued; difficulties as to freight have retarded the definite formation of a Fruit Grower's Association which had been proposed.

Progress of any Improvements previously reported

Food Supply.—The Ground Provision Depot started under the direction of the Department of Agriculture in 1917 has done good work and proved a financial success. It affords to the grower a ready means of disposing of his crop at reasonable prices, and to the consumer of obtaining supplies. The Kiln drying of corn has been continued and local corn meal finds a ready sale. The Department of Agriculture has encouraged as much as possible the increased growth of food products; and the Board of Agriculture held vegetable prize competitions in Tobago.

Stock.— During the year the Department of Agriculture imported a Thoroughbred Stallion from the United States of America, a Red Poll Bull from England and pedigree pigs of three breeds from Canada. Zebu bulls on order from India have not arrived due to shipping difficulties.

Excellent work has been done by the Ste. Madeleine Sugar Co. with its new Stock Farm.

Agricultural Credit Societies.—The number of Societies increased during the year from 6 to 22 due chiefly to the Ste. Madeleine Sugar Co. fostering the movement amongst its Cane Farmers.

<i>Asphalt.</i>—The Pitch or Asphalt deposit at La Brea continues to be a fruitful source of revenue. The so-called “Pitch Lake” covering an area of 114 acres has been leased to the Trinidad Asphalt Co., since 1st January, 1888. In 1887 the revenue from Asphalt was £5,113, in 1888 the first year of the Concession it bounded up to £17,188, and during the year ending 31st December, 1919, including Export dues and Royalty it amounted to £29,792. <i>Manjak.</i>—Only one Company was engaged in winning this mineral during the year. <i>Mineral Oils.</i>—The development of the Oilfields continues in a satisfactory manner. The number of Companies operating at the close of the year was thirteen, but there is considerable activity in the oil industry of the Colony and several Companies of good financial standing will be commencing operations in the very near future. During the year 64,436,632 Imperial Gallons of Crude Oil were extracted, and of this quantity, 14,325,121 Imperial Gallons were exported. The use of Oil fuel in the Colony is steadily increasing, and a good many ships now call and take in oil fuel for bunker purposes. During the year 30,355,986 Imperial Gallons of oil fuel were exported. <i>Petrol, Kerosene and Lubricating Oil</i> continue to be manufactured in local refineries, the production of the first named having practically replaced the imported article. 2,419,744 Imperial Gallons of Petrol, 2,108,454 Imperial Gallons of Kerosene and 8,501 Imperial Gallons of Lubricating Oil were exported. <i>Quarries.</i>—Stone and Gravel Quarries are scattered over the Colony. Those in Port-of-Spain and San Fernando are chiefly owned by private parties, whilst those in the country districts are almost entirely owned by the Government.	No return.—The principal fishing Stations are :—Carenage (S. Pierre and L'Ance Coco), Corbeau Town and Macqueripe Bay supplying Port-of-Spain, and San Fernando supplying Naparima. A small colony of Italian fishermen from the Mediterranean carry on a trawling business.		Grouper, King fish, Mackerel, Salmon, Red fish, Cavally, Mullet, Prawns, etc., etc.—Quantity unknown. No return.

(b.) Includes 5 judicially executed and one suicide by hanging.
(c.) All cases of illness are transferred to the Royal Gaol for medical treatment.

RETURN FOR THE PRISONS OF TRINIDAD FOR THE YEAR ENDING ON THE 31st DECEMBER, 1919.

The Prisons of the Colony consist of :—

The Royal Gaol, Port-of-Spain.

The Carrera Convict Prison at the Boca District.

A Convict Dépôt at Laventille.

All prisoners are committed to the Royal Gaol, from whence a portion of the male convicts are transferred to the Carrera Prison or the Laventille Dépôt.

A District Prison at Tobago at which prisoners summarily committed for any period may be detained.

District Prisons at Toco, Mayaro, Cedros, Blanchisseuse, and the Constabulary Barracks, Port-of-Spain, at which prisoners committed for thirty days and under may be detained.

A Prison at the Leper Asylum, Cocorite, for the detention of Lepers.

QUESTIONS.

- I. If the Prison is on a separate system, is the separation complete? And if not, what is the separation enforced by day and night respectively?
- II. If not on the separate system, what provision is there for the supervision of the prisoners while in association?
- III. How many Cells are there; and how many associated Wards?

ANSWERS.

At the *Royal Gaol* and *Female Prison* there is separation at night, as far as Cell accommodation permits. At the *Carrera Prison* and the *Laventille Convict Dépôt* there is separation at night. By day the majority of the prisoners work in association.

All prisoners in association by day are under the constant supervision of Warders, if males, or of Matrons, if females. The male prisoners in association during the night are frequently inspected by Warders, through inspection holes in the doors.

QUESTIONS.

V. How are the prisoners classified ?

VI. Is penal labour—that is, labour by treadmill crank, or shot drill—in force ?

VII. If so, during what periods of imprisonment, in respect of what classes of prisoners, and during how many hours, is such penal labour enforced ? In stating hours of tread-wheel labour, give, first, the total time on and off at the wheel, &c. ; secondly, the length of spells and intervals of rest.

VIII. What kind of labour, other than penal labour is in use ?

IX. If the prisoners are employed beyond the walls of the Gaol, state—

1. On what kind of work they are so employed ?

2. How are they supervised ?

3. How many escapes of prisoners, while being employed beyond the Gaol, have taken place during each of the last three years ?

4. How the profits of their labour are accounted for ?

ANSWERS.

1st Class—Debtors : Persons committed for non-payment of any tax or duty to the Crown, or any public or local rate, or for contempts ; persons committed for want of security for their appearance as witnesses ; and persons committed by the Supreme Court and ordered to be treated as first class, and persons committed for trial or further examination.

2nd Class—Prisoners not sentenced to hard labour ; and those committed for want of security to keep the peace.

3rd Class—Indentured Immigrants for breaches of Indenture.

4th Class—Military prisoners.

5th Class—Prisoners under sixteen years of age.

6th Class—All other prisoners.

Yes, at the Royal Gaol only, by Shot Drill.

A portion of the prisoners sentenced to hard labour, if not exempted by the Medical Officer, perform daily two spells of Shot Drill (of 1½ hours each) until transferred to the Carrera Prison or Laventille Dépôt.

ROYAL GAOL :—

Breaking road metal, working at trades, picking fibre, making fibre matting and in the necessary service of the prison, quarrying stone, breaking metal at the Laventille and Eastern Quarries, cutting timber for fire wood, at Belmont Hill, St. Ann's, on grounds around Government House, St. Ann's, on grounds around the Prisoners' of War Camp at St. James, at road making at St. Ann's Hill and on such other labour as the Governor directed.

A gang of first offenders was employed, during the latter part of the year, at making a garden at the Mucurapo Pasture for supplying ground provisions to the Prisons.

Females are employed at needlework, laundry work and fibre work.

Laventille Convict Dépôt :—Quarrying stone and reclaiming swamp lands at Laventille.

Carrera Prison :—Quarrying stone, breaking metal, picking fibre, making mats and at various trades.

What is the source of the Water Supply; the quality of the water; and the amount of water available for each patient every day?

Two Reservoirs holding 70,000 gallons and 100,000 gallons the latter for fire purposes. Water brought from spring on hillside within the Asylum premises, quality good, quantity unlimited during wet season, scarce during dry season. Also rain water cistern holding 40,000 gallons for use in the laundry. Supplementary supply from the St. Ann's reservoir within the Asylum premises, connected by a force pump with rain water cistern, and by an Automatic Ram direct from St. Ann's Reservoir.

What is the number of—(I.) Lavatories?

Fourteen.

(II.) Baths?

Seventeen.

(III.) Latrines?

Twenty.

What is the system of Sewerage?

Water closet system. Waste water from Lavatories, Baths, and Laundry carried away by the Town sewerage system. Surface water drains carry off the surplus rain water.
